SLIM Super-large arc window

SLIM series product features: rich extensible forms

SLIM series can realize door, window, partition and other product forms. In these styles, each class has various fractals and makes various styles. SLIM is definitely the legendary "all-round player" from the penetration of all glass to the matching of metal plates, from the retro arc to the exquisite chess pattern, and then there are all kinds of hardware, all kinds of pressing lines and all kinds of glass.

An architectural sketch of a building facade featuring large, arched windows with decorative, lattice-like patterns. A balcony with a railing and a small lamp is visible on the left. The drawing is in a light, sketchy style with a warm, yellowish-brown color palette.

SLIM Super-large arc window

1 : The window frame and sash are both made of thermally broken steel profiles. This kind of cold-formed steel profiles have characteristics of high strength and they can make windows frame and sash very narrow.

2 : The surface is fluorocarbon coating.

3 : They can be made single-sash window and double-sash window and super wide and high fixed window

4 : The window glass has 2 choices:
Insulating glass: 6mm+12A+6mm or
double Insulating glass: 6mm+12A+6mm+12A+6mm

5 : Various window types can be configured with art deco strips

6 : Excellent performance in wind resistance, water tightness, air tightness and U value.
